- ✓ Smooth wrinkles.
- ✓ Whiten skin.
- ✓ Fade dark circles.
- ✓ Smooth eye pouch.
- ✓ Tender eye.
- ✓ Improve skin vitality.
- ✓ Firm and soften arms and legs.
- ✓ Shape good figure.

How does Radio Frequency work?

An RF device delivers radiofrequency energy at 0.5-8 MHz, this machine is 5MHz, which delivers a uniform volumetric heating effect into the deep dermis and underlying tissue. Heat is generated by the tissue's natural resistance to the flow of current within an electric field. (impedance)
