

**moto g**  
POWER

## YOU WANT UP TO 3-DAYS OF BATTERY. YOU GOT IT.

Want longer battery life and gorgeous photos? Get **moto g power**. With its 5000mAh battery, you can go up to three days<sup>1</sup> on a single charge. And **moto g power** packs a 48MP triple camera system,<sup>2</sup> so you can capture stunning images in any light. How about a better view? Watch games, movies, and video chats on an ultra-wide 6.6" screen. Wanna capture more of life? You got it.

### UNIVERSALLY UNLOCKED

Compatible with all major U.S. carriers including Verizon, AT&T, T-Mobile, Sprint and several prepaid carriers.<sup>3</sup>

### UP TO THREE DAYS OF BATTERY<sup>1</sup>

Capture more of life without stopping to recharge thanks to a 5000 mAh battery. Also, fuel up fast in just minutes of charging.<sup>1</sup>

### 48MP QUAD triple camera system<sup>2</sup>

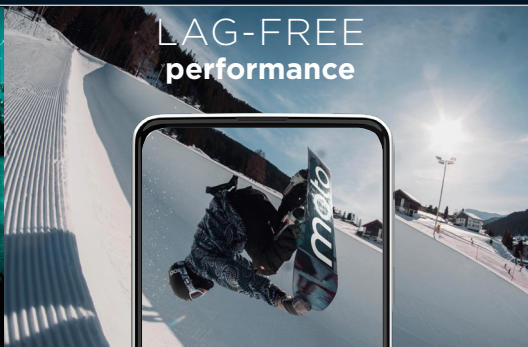

Take stunning photos in any light, as well as beautifully blurred portraits and incredibly detailed closeups.

6.6" MAX VISION  
HD+ DISPLAY

Watch games, movies, and video chats come to life on an ultra-wide screen.

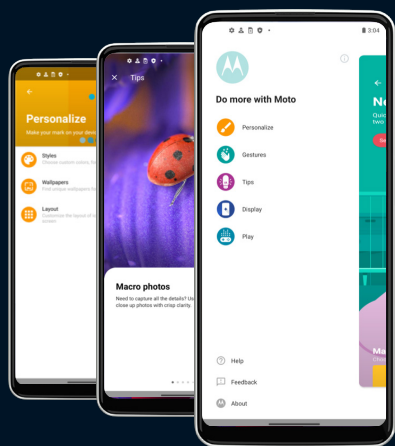

LAG-FREE  
performance

Get more done without slowing down thanks to a speedy Qualcomm® Snapdragon™ 662 octa-core processor with AI capabilities.

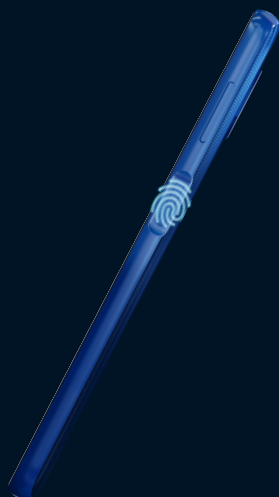

Water-repellent  
design<sup>4</sup>

Never let spills or splashes get in your way. Whether you're going for a run or taking a call in the rain, a water-repellent design keeps your phone protected from accidents and the elements.

## MY UX

With My UX, your phone works the way you want. Control it with simple gestures, customize your entertainment settings, and create a look that's one in a million. The new My UX. It's all you.

## ALWAYS BY YOUR SIDE

Never mind your password. Just use your fingerprint to unlock your phone. The combined power button/fingerprint reader is located on the side of the device, so unlocking is completely natural. A quick double tap opens a shortcut menu, so launching your favorite apps is a snap.

NIGHT VISION

SPOT COLOR VIDEO

## CAMERA FEATURES

### NIGHT VISION

Switch to Night Vision mode to bring more details out of the dark.

### SPOT COLOR VIDEO

Just choose a color to keep from a particular spot in your frame, and then turn everything else in the video to black & white.
