Daily Hair Extension Care Tips

MORESOO HAIR

WASHING & CONDITIONING

This guide addresses common concerns and provides practical solutions to hp maintain comfort, appearance, and product longevity.

GENTLE WASHING:

Always use sulfate-free shampoos and conditioners to avoid stripping the natural oils from the hair extensions.

Wash your hair extension gently with lukewarm water. Avoid hot water to prevent tangling and damage.

CONDITIONER USAGE:

Apply conditioner only to the mid-lengths and ends. Never apply conditioner to the roots or extension attachment points (bond/tape area).

Deep Conditioning: Regularly use a deep-conditioning treatment or hair oil to keep the hair smooth and reduce static (especially in colder seasons).

COMBING & BRUSHING

This guide addresses common concerns and provides practical solutions to hp maintain comfort, appearance, and product longevity.

SORTING METHODS :

Use a wide-tooth comb or a brush designed specifically for hair extensions.

Start from the tips and gradually work your way up to the roots to minimize breakage.

Detangle hair extensions gently to avoid pulling on the wefts or bonds.

STYLING & HEAT & DYEING

This guide addresses common concerns and provides practical solutions to hp maintain comfort, appearance, and product longevity.

STYLING & HEAT

Temperature Limitations: If using a flat iron or curling iron, never exceed 180°C (356°F).

Protective Measures: Always apply a heat protectant spray before styling.

Blow-Drying Tips: Air drying is the best option. If using a blow dryer, set it to a low heat or cool setting, and keep the dryer 6-8 inches (15-20 cm) away from your hair.

Use a flat nozzle and direct the airflow downward to help seal the cuticle and create smoothness.

DYEING TIPS:

Safe: Lightening dark hair.
Avoid: Darkening light or bleached hair (which can severely damage the hair quality).

DAILY LIFE & SLEEPING

This guide addresses common concerns and provides practical solutions to hp maintain comfort, appearance, and product longevity.

SLEEP PROTECTION:

Braid your hair loosely or tie it in a low ponytail before bed.

It's recommended to use a silk pillowcase or wear a silk hair cap to reduce friction and prevent morning tangles.

CONDITIONER USAGE:

Avoid wearing extensions when at the beach (saltwater) or in pools (chlorine water). Salt and chemicals can severely damage the hair and connection points.

If exposure is unavoidable, secure the hair tightly in a bun and wear a swim cap. Rinse hair thoroughly afterward.

REGULAR MAINTENANCE

This guide addresses common concerns and provides practical solutions to hp maintain comfort, appearance, and product longevity.

REGULAR MAINTENANCE

Have your extensions checked every 6-8 weeks for reinstallation or adjustments, especially if you use tape-in or fusion extensions.
If using clip-ins, remove them before sleeping to prevent any damage to your natural hair.
