SUMMARY OF ACCOUNTING PRINCIPLES

Translation of Foreign Currencies

The monetary assets and liabilities denominated in foreign currencies are translated at the rates of exchange at December 31 of the involved book-year. Revenues and expenses are translated at the exchange rate prevailing at transaction date.

Accounting for Transactions In-Kind

To inform (potential) donors and other interested parties about the size of our activities Thaki has introduced a process by which we also account for Gifts in Kind in our Income Statement. For further information we refer to the paragraph Gifts in Kind/In-Kind Donations (IKD) and the notes to the income statement.

Fixed Assets

Fixed assets are valued at cost less accumulated depreciation. The yearly depreciation is based upon the economic useful life of each of the assets.

Inventory

Thaki will value all IKD received at fair market value in € amounts using the exchange rate on the date the goods are received or for the period the services are provided. Other inventory is valued at cost price.

Receivables

Receivables are valued at face value wherever applicable less allowances for doubtful debts.

Cash

Cash and cash equivalents are valued at face value.

Liabilities

Liabilities are recorded at face value. Amounts due within one year are classified as short term liabilities. Liabilities due after one year are classified as long term liabilities.

Gifts and Grants

Unconditional gifts and grants are recognized upon receipt. Grants for assigned projects will be recognized as far as the involved projects completed.

In-Kind Donations (IKD)

As stated Thaki will value all IKD received at fair market value in € amounts using the exchange rate on the date the goods are received or for the period the services are provided.

Fair market value is the amount that Thaki will spend to purchase goods or services.

Donors may estimate the value of the donated goods, which could be accepted if the evaluation is within +/- 10% of Thaki's assessment of fair market value. Thaki could use the following methodology to evaluate the IKD value:

- eBay and other online sale websites.
- Collect quotes from vendors to determine their market rate.
- Use a salary benchmark to determine the average value of the skill level required for the donated service.
