

EARTHQUAKE IN CALABRIA.

**Inhabitants Greatly Alarmed, Fearing
Repetition of October's Devastation.**

REGGIO DI CALABRIA, Jan. 23.—Several strong earthquake shocks have been felt in this province to-day. The inhabitants, recalling the devastation wrought by the earthquake of last October, are in a condition of frenzied panic. Up to the present time no report of loss of life has been received, but a good deal of damage has been done to public buildings and residences.

The shocks were particularly severe at the villages of Bianco, Brancaleone, Bruzzano, and Ferruzzano. Screaming and terrified, the people rushed from their houses to the open fields, or took refuge in the near-by subterranean grottos.

Notwithstanding the intense cold, the people are camping in the open. The municipal authorities have set up tents in the fields which to some extent will alleviate the sufferings.
