12101 – General

1. NOAA Corps uniforms are distinctive visual evidence of the authority and responsibility vested in the wearer by the United States. All NOAA Corps officers shall dress in accordance with the traditions and customs of the uniformed service. NOAA Corps officers shall present a professional appearance that reflects positively on the individual, the NOAA Corps, and the United States.
2. NOAA Corps officers shall adhere to the uniform and grooming standards (male or female) that matches their sex marker in DEERS.
3. NOAA Corps officers are responsible for procuring and maintaining an adequate supply of uniforms appropriate to their assigned duties.
4. NOAA Corps officers will ensure the proper fit and wear of their uniform and maintain compliance of grooming standards as outlined in this Directive. Uniforms shall be kept clean, with lace, devices and insignia bright and free from tarnish and corrosion. Personal appearance will reflect the highest level of the uniformed service image. A professional appearance will be free of distractions while in uniform. The image reflected by attention to detail, compliance with grooming standards while wearing your uniforms, is a key element in the public image of the NOAA Corps.
5. Accessory Articles
 - (1) No accessory articles shall protrude from or be visible on the uniform, including cellular phones (except when required in the performance of duty and issued by the command).
 - (2) Bags (i.e. briefcases, gym bags, backpacks, lunch bags, suit cases, garment bags, etc. (this does not include women's handbags/purses) shall be solid black or navy blue in color, without personal ornamentation, and not distract from the uniform. Bags shall be hand carried in the left hand to facilitate saluting. The exceptions to hand carrying bags are as follows:
 - (a) Computer bags/brief cases may be worn with the strap across the left shoulder of the Service Khaki and ODU uniform to facilitate saluting. When wearing a bag, the strap must be worn (fore and aft) with the bag hanging on the same side of the body. The case or bag will not be worn with the strap and bag on the opposite sides of the body (diagonally).
 - (b) Backpacks may be worn with the straps over both shoulders (fore to aft) or with a single strap over the left shoulder while wearing working uniforms.
 - (c) Women's handbags shall be carried over the left shoulder or forearm, placing the top of the handbag at waist level.
 - (d) Bags may be worn while riding a bicycle or motorcycle, but shall be hand carried upon dismounting provided they do not meet the requirement to

wear as outlined in this section. A full seabag may be carried/worn on the shoulders.

- (e) Bags that do not meet the requirements in this section shall be hand-carried in the left hand.

6. Glasses and Eyewear

- (1) Prescription Glasses are authorized provided the lenses are not eccentric, faddish, or distract from the uniform's appearance. Retainer straps are authorized for Foreign Object Debris (FOD) prevention and safety only. If retainer straps are required, they shall be plain, black, and worn snugly against the back of the head.
- (2) Sunglasses are authorized as long as they are conservative in design and do not detract from the uniform's appearance. Mirrored lenses are prohibited. Sunglasses are not authorized for military formations. Retainer straps are authorized for FOD prevention and safety only. If retainer straps are required, they shall be plain, black, and worn snugly against the back of the head.

7. Military creases are formed by pressing two vertical creases in the front of the shirt, from the shoulder seam through the center of each pocket to the bottom of the shirt, and three evenly spaced vertical creases in the back of the shirt, from the yoke seam to the bottom of the shirt. Shirts which do not have a yoke seam across the back of the shirt as a reference point for placing three evenly spaced creases, start the outboard creases at the shoulder seam and the center crease at the seam where the collar is attached to the shirt, ending all at the bottom of the shirt.

8. Uniforms may be tailored to provide a well-fitting, professional bearing. They shall not be altered to the extent of detracting from an appearance or altering their utility, nor shall they be tailored to the point of presenting a tight form fit.

9. Suggested changes to these Uniform Directives shall be submitted via memorandum through the chain of command, Chair, Uniform and Awards Board (UAB) and to the Director. The following format is required:

- (1) Provide a brief statement addressing the uniform issue;
- (2) A full statement outlining the reason for the suggestion to change:
 - (a) Outline the costs and benefits to the NOAA Corps,
 - (b) List alternatives; and
 - (c) If appropriate, pictures or drawings of the recommended changes.

10. All questions concerning uniforms not resolved by these Directives shall be referred to the UAB Chair, via email at: noaacorps.uab@noaa.gov.

12102 – Authorized Uniforms

- 3.** Optional items are accessory items that may be worn in addition to the basic uniform, and alternate items that may be substituted for a basic uniform component (See Parts 4 and 5 of this Chapter), at the discretion of the officer. Prescribed items are those optional items that a command may require based on a duty station, climate, nature of the assignment, or other factors. Maintenance of prescribed items is required.
- 4.** The Director may, at any time, authorize additional uniform items that are made available for purchase and authorized by either the U.S. Navy or U.S. Coast Guard, as appropriate.

12103 – Required Uniforms

- 1.** NOAA Corps officers shall maintain the basic and prescribed components of the required uniform.

12105 – Authority to Prescribe

1. Center commanding officers, commanding officers, aircraft commanders, or senior officers present shall prescribe the uniform of the season, day, or special occasion to be worn by all personnel within the limits of their command. Such prescription shall be made with the knowledge and consent of the Director. The Director shall prescribe the uniform to be worn in the Washington, D.C. metropolitan area.
2. Commanding officers or aircraft commanders may authorize NOAA Corps officers under their command to deviate from uniforms prescribed when adverse or unusual field conditions render the prescribed uniforms impractical or inappropriate.
 - (1) Protective clothing and equipment, not normally part of the uniform, may be issued, authorized, or required. The wearing of motorcycle helmets, industrial hats, safety shoes, coveralls, foul-weather gear, flotation jackets, blue or green working jackets (A-2), knit watch caps, sneakers, rubber boots, etc., to meet industrial and personal safety requirements is authorized, and may be mandatory at times.
 - (2) Civilian clothing may be authorized or required for special operations and billets, only after receiving the Director's approval.

12106 – Uniform Headgear

1. The cover is an integral part of the uniform. Out-of-doors, personnel should remain covered at all times except as defined below. Thus, unless ordered to uncover, personnel shall remain covered during change of commands, ship commissioning, launchings, military burials, etc. The chaplain conducting the religious portion of the ceremony will be guided by church customs with respect to wearing of head covering. Covers are typically removed indoors. NOAA Corps officers may remove covers when traveling inside a private or government automobile.
2. Covers shall not be worn when outside under the following circumstances:
 - (1) When ordered to uncover;
 - (2) When wearing formal dress, Dinner Dress Blue Jacket, or Dinner Dress White jacket uniforms, unless outer garments are worn with these uniforms, in which case an appropriate cover is required;
 - (3) While seated to dine; and
 - (4) During religious services not associated with a military ceremony.

12107 – Uniform Material

Uniform coats, shirts, trousers or skirts, belts, and garrison caps (if worn) shall be made of matching material. The mixing of types of fabric is prohibited.

12108 – Civilian Clothing

1. Civilian clothing may be worn on leave or liberty; when leaving or returning to a ship, office or other work site; or in any off-duty status in port. NOAA Corps officers shall ensure their civilian dress and personal appearance is appropriate for the occasion and will not bring discredit upon the NOAA Corps and the United States.
2. Uniform items may be worn when off duty with civilian attire provided all rank and service insignia have been removed from the item. The resulting (civilian + uniform) attire must not give the impression of being in uniform.
3. Personnel on PCS or TDY orders may travel in civilian clothing unless otherwise directed by competent authority. Those who wear a uniform will observe regional travel requirements.
4. Personnel under instruction at civilian educational institutions may wear civilian clothes at all times unless otherwise directed by competent authority.

2. Request for exceptions to these Directives shall be routed to the Director, through the officer's chain of command and the Director, CPC.

Sections

12201 – NOAA Corps Officer Bearing	11
12202 – General Grooming Standards.....	11
12203 – General Personal Appearance	11
12204 – Men’s Personal Appearance	14
12205 – Women’s Personal Appearance	15

12201 – NOAA Corps Officer Bearing

 - (1) Proper uniform;
 - (2) Neat appearance;

 - (4) Upright posture;
 - (5) Appropriate civilian attire when not in uniform; and
 - (6) Proper conduct and interaction with public officials and private citizens.
2. Placing hands in pockets, smoking, eating, or drinking while in uniform as a pedestrian detracts from the appearance and is inappropriate. The use of hand-held electronic devices (i.e. cell phones) while walking is inappropriate. In the event of an emergency or need to conduct official business, officers shall stop and step aside.
3. Public displays of affection while in uniform shall be short and discrete in nature.

12202 – General Grooming Standards

1. Grooming standards are based on several elements, including neatness, cleanliness, safety, and appearance. The standards established herein are not intended to be overly restrictive. The primary consideration is to present a neat appearance while wearing the uniform.
2. Articles such as pens, pins, jewelry, handkerchiefs, pipes, etc., shall not be worn or carried, exposed upon the uniform, except as authorized in these Directives.
3. NOAA Corps officers shall conform to the grooming standards that correspond to their sex marker as recorded in DEERS.

12203 – General Personal Appearance

1. Hairpieces – Hairpieces or wigs shall be of good quality and fit, present a natural appearance, and conform to the grooming standards set forth in these Directives. They shall not interfere with the proper performance of duty or present a safety hazard.
2. Jewelry – Conservative Jewelry is authorized for all personnel while in uniform. Jewelry that distracts from the professional appearance while in uniform is not authorized. Jewelry shall not present a safety hazard. Jewelry shall be worn within the following guidelines:
 - (1) Rings – While in uniform, rings shall be conservative. Rings that distract from the professional military appearance of the individual in uniform are not authorized. Rings may consist of natural metals or fabricated materials (e.g., plastic, wood, silicone) and may be gold, silver, copper, grey, tan, brown, black, white, or light pink in color. Only one ring per hand is authorized, plus a wedding/engagement ring set. Double stacking wedding rings with military academy/educational

institution rings is authorized on one hand. Rings shall not present a safety hazard. Rings are not permitted to be worn on the thumb.

(2) Body Piercing

- (a) No piercing, other than those for earrings as described below, will be made through the ear, nose, tongue, chin, eyebrow, or any other body part that would be visible while in any uniform. Ear piercings for females must not exceed two per ear lobe and must be small and inconspicuous in accordance with Section [12205\(D\)](#) of this chapter. Additional ear lobe and cartilage piercings are prohibited.
- (b) Visible body piercings are not authorized while in uniform, or while carrying out official duties in civilian attire, while within any location under military jurisdiction (e.g., base, ship, aircraft), or while participating in any organized military recreational activities. Piercings concealed by clothing shall not be visible through, or interfere with, the professional appearance or performance of the officer in uniform, or while wearing civilian attire as described above.
- (c) Personnel with preexisting unauthorized piercings must discontinue use of those piercings to allow for eventual healing. Questionable cases should be referred to the Director, Commissioned Personnel Center (CPC) for guidance.

(3) Necklaces/choker – While in uniform, only one necklace may be worn and it shall not be visible. Necklaces shall not present a safety hazard.

(4) Bracelets – While in uniform, bracelets shall be conservative. Bracelets that distract from the professional military appearance of the individual in uniform are not authorized. Bracelets may consist of natural metals or fabricated materials (e.g., plastic, wood, silicone), and may be gold, silver, copper, gray, tan, brown, black, white, or light pink in color. Only one bracelet may be worn while in uniform. Ankle bracelets are not authorized. Bracelets shall not present a safety hazard.

(5) Wristwatches – While in uniform, wristwatches shall be conservative. Wristwatches that distract from the professional military appearance of the individual in uniform are not authorized. Only one watch and one bracelet may be worn simultaneously (one on each wrist) while in uniform.

3. Tattoos/Body Art/Brands – All tattoos/body art/brands are subject to the following requirements, regardless of ink type (including ultraviolet). Cosmetic tattooing is authorized to correct medical conditions requiring such treatment, and is not subject to the limitations listed herein. For the purpose of this Directive, cosmetic tattooing refers to medical or surgical procedures conducted by licensed, qualified medical personnel.

(1) Location – No tattoo or brand, of any type, is authorized on the head, face (including inside the mouth), neck, or hands, except as described below.

(a) Neck/Chest – No tattoo or brand may be visible above the collar of a

standard crew neck t-shirt.

- (b) Hands – A single tattoo per hand, no larger than one inch in any dimension is authorized between the wrist and the first knuckle (closest to the wrist). Tattoos on the palm of the hand are not authorized.
 - (c) Fingers – A single finger tattoo per hand is authorized and must be within the first and second knuckle closest to the wrist. A ring is considered a finger tattoo.
 - (d) Head/Face – Permanent cosmetic makeup is authorized for female officers in accordance with Section 12205(C) of this Chapter. No other tattoos, body art, branding, etc. is permitted on the head or face.
- (2) Content – Tattoos or brands anywhere on the body that promote racism/discrimination, indecency, extremist or supremacist philosophies, lawlessness, violence, or contain sexually explicit material are prohibited. Prohibited content includes, but may not be limited to:
- (a) Racist or discriminatory tattoos or brands that advocate the degradation of people based on a protected category.
 - (b) Indecent or sexually explicit tattoos or brands that contain a visual image, the dominant theme of which depicts or promotes graphic nudity, including sexual activities or organs, in a lustful way. Tattoos featuring fully exposed nudity are prohibited.
 - (c) Extremist tattoos or brands that depict or promote extremist activities or organizations that advocate hatred, intolerance, or lawlessness (e.g., terrorist groups, neo-Nazis, skinheads, outlaw gangs, extreme political organizations with violent histories). Because some extremist/criminal groups and organizations exploit popular symbols (e.g., cartoon characters), care must be taken in evaluating such tattoos or brands so as not to implicate members who may have selected the tattoo or brand based on its artistic value rather than a hidden meaning. In these cases, a member's command will make a determination based on the totality of thematic elements expressed by tattoos or brands elsewhere on the body.
 - (d) Tattoos or brands labeled violent or promoting lawlessness are those that depict extreme graphic violence, profanity, glorifications of drug culture, or markings that can reasonably be interpreted as advocating the violent overthrow of State or Federal Government.
- (3) Coverage Area – There is no limitation on size or percentage of coverage of tattoos, with the exception of those prescribed in Section 12203(C)(1) of this Directive. In the case of branding, no more than one brand, not to exceed 4-inches by 4-inches, is authorized. Branding content and location is subject to the restrictions listed in Section 12203(C)(1) and (C)(2), of this Directive.

- (4) Body Mutilation or Modification – Other forms of intentional body mutilation or modification are not authorized. Examples include: scarring, excessive ear piercing/stretching, tongue splitting, subdermal decorative implants, decorative tooth plating/engraving, etc. This prohibition does not include traditional elective medical procedures such as teeth straightening, cosmetic plastic surgery, etc.

12204 – Men's Personal Appearance

1. Hair will be clean and neatly arranged, presenting a professional appearance while in uniform or when wearing civilian attire in the performance of duty.
 - (1) Keep hair neat, clean and well groomed. Hair above the ears and around the neck shall be tapered from the lower natural hairline upwards at least 3/4 inch and outward not greater than 3/4 inch to blend with hair-style. Hair on the back of the neck must not touch the collar. Hair shall be no longer than four inches and may not touch the ears, collar, extend below eyebrows when headgear is removed, show under front edge of headgear, or interfere with properly wearing military headgear. The bulk of the hair (the distance that the mass of hair protrudes from the scalp) shall not exceed approximately two inches.
 - (a) Hair coloring must look natural and present a complementary appearance. Multicolored hair styles (other than naturally-occurring) are not authorized.
 - (b) The unique quality and texture of curled, waved, and straight hair are recognized, and in some cases the 3/4-inch taper at the back of the neck may be difficult to attain. In those cases, hair must present a graduated appearance and may combine the taper with a line at the back of the neck.
 - (c) One (cut, clipped, or shaved) natural, narrow, fore and aft part is authorized.
 - (d) Varying hairstyles, including afro, are permitted if these styles meet the criteria of maximum length and bulk, tapered neck and sides, and do not interfere with properly wearing military headgear. Plaited or Braided hair shall not be worn while in uniform or in a duty status.
 - (e) Keep sideburns neatly trimmed and tailored in the same manner as the haircut. Sideburns shall not extend below a point level with the middle of the ear, shall be of even width (not flared) and shall end with a clean-shaven horizontal line. "Muttonchops," "Ship's captain," or similar grooming styles are not authorized.
2. Shaving and Mustaches – The face shall be clean shaven unless a medical shaving waiver or religious accommodation is authorized by the Director.
 - (1) Mustaches, if worn, will be kept neatly and closely trimmed. No portion of the mustache shall extend below the lip line of the upper lip. In addition, it shall not go beyond a horizontal line extending across the corners of the mouth, and no more than 1/4-inch beyond a vertical line drawn from the corner of the mouth.

The length of any individual mustache hair fully extended will not exceed 1/2-inch. Handlebar mustaches, goatees, beards, or chin hair are not authorized.

3. Fingernails – Fingernails shall be kept clean and maintained in a professional appearance. Fingernails shall not extend past the fingertips. The tips of the nails may be rounded to align with the contour of the fingertip. Buffed nails or clear coat nail polish is authorized. Colored nail polish is not authorized.
4. Earrings – Earrings are not authorized in uniform, or while carrying out official duties in civilian attire, while within any location under military jurisdiction (e.g., base, ship, aircraft), or while participating in any organized military recreational activities.

12205 – Women’s Personal Appearance

1. Hair will be clean and neatly arranged, presenting a professional appearance while in uniform or when wearing civilian attire in the performance of duty.
 - (1) Acceptable Hairstyle Criteria – Hairstyles and haircuts shall present a professional and balanced appearance. Appropriateness of a hairstyle shall be evaluated by its appearance when headgear is worn. All headgear shall fit snugly and comfortably around the largest part of the head without distortion or excessive gaps. Hairstyles will not interfere with the proper wearing of headgear, protective masks or equipment. When headgear is worn, hair shall not show from under the front of the headgear. Hair is not to protrude from the opening in the back of the ball cap, except when wearing a bun or ponytail hairstyle. All buns and ponytails shall be positioned on the back of the head to ensure the proper wearing of all headgear. Lopsided and extremely asymmetrical hairstyles are not authorized. Angled hairstyles will have no more than a 1-1/2 inch difference between the front and the back length of hair. Layered hairstyles are authorized provided layers present a smooth and graduated appearance.
 - (2) Hair length – When in uniform, hair may touch, but not fall below a horizontal line level with the lower edge of the back of the collar. Long hair, including braids, shall be neatly fastened, pinned, or secured to the head. When bangs are worn, they shall not extend below the eyebrows. Hair length shall be sufficient to prevent the scalp from being readily visible (with the exception of documented medical conditions). Hair bulk (minus the bun) as measured from the scalp will not exceed 2 inches. The bulk of the bun shall not exceed 3 inches when measured from the scalp and the diameter of the bun will not exceed or extend beyond the width of the back of the head. Loose ends must be tucked in and secured.
 - (3) Hairstyles – Hairstyles shall not detract from a professional appearance in uniform. Styles with shaved portions of the scalp (other than the neckline), those with designs cut, braided, or parted into the hair, as well as dyed using unnatural colors are not authorized. The unique quality and texture of curled, waved and straight hair are recognized. All hairstyles must minimize scalp exposure. While this list shall not be considered all inclusive, the following hairstyles are authorized:
 - (a) Three strand braids and two strand braids (also referred to as twists) are

authorized. Braided hairstyles shall be conservative and conform to the guidelines listed herein.

- (b) Multiple braids – Multiple braids consist of more than 2 braids and encompass the whole head. When a hairstyle of multiple braids is worn, each braid shall be of uniform dimension, small in diameter (no more than 1/4 inch), and tightly interwoven to present a neat, professional, well-groomed appearance. Foreign material (e.g., beads, decorative items) shall not be braided into the hair. Multiple braids may be worn loose, or may be pulled straight back into a bun, within the guidelines herein.
- (c) Two individual braids – One braid worn on each side of the head, uniform in dimension and no more than one inch in diameter. Each braid extends from the front to back of the head near the lower portion of the hair line (i.e., braids are closer to the top of the ear than the top of the head to prevent interference with wearing of headgear). A single French braid may be worn starting near the top of the head and be braided to the end of the hair. The end of the braid must be secured to the head and braid placement shall be down the middle of the back of the head.
- (d) Corn rows – Corn rows must be in symmetrical fore and aft rows, and must be close to the head, leaving no hair unbraided. They must be no larger than 1/4 inch in diameter and show no more than approximately 1/8 inch of scalp between rows. Corn row ends shall not protrude from the head. Rows must end at the nape of the neck and shall be secured with rubber bands that match the color of the hair. Corn rows may end in a bun conforming to the guidelines listed herein, if hair length permits.
- (e) Rolls – Two individual rolls, one on each side of the head, must be near the lower portion of the hair line (i.e., rolls are closer to the top of the ear than the top of the head and will not interfere with wearing of headgear). Rolls must be of uniform dimension and no more than one inch in diameter.
- (f) Locks – Lock hairstyle (locks) for the purpose of NOAA Corps Directives grooming standards consists of one section of hair that twists from or near the root to the end of the hair and creates a uniform ringlet or cord-like appearance. Locks may be worn in short, medium, and long hair lengths in the following manner:
 - (i) Locks must continue from the root to the end of the hair in one direction (no zig-zagging, curving, or ending before the end of the lock to dangle as a wisp or loose hair) and should encompass the whole head. Locks partings must be square or rectangle in shape in order to maintain a neat and professional appearance.
 - (ii) Locks can be loose (free-hanging where no hair is added to the lock once it is started other than hair extensions that are attached to

natural hair). When worn loose, locks will be spaced no more than three-eighths of an inch apart, diameter/width will not exceed three-eighths of an inch, and locks will be tightly interlaced to present a neat and professional military appearance. Locks may also be worn in a bun provided all hair grooming requirements are met. Faux locks are authorized provided the hairstyle worn is in compliance with female hair grooming requirements. Locks may not be worn in combination with other hair styles (e.g. twists, braids).

- (iii) New growth (defined as hair that naturally grows from the scalp and has not yet been locked) will not exceed one-half inch at any time.
 - (iv) Locks that do not meet the above standards and do not present a neat and professional military appearance will not be worn in uniform.
- (a) Ponytails – A ponytail is a hairstyle in which the hair on the head is pulled away from the face, gathered and secured at the back of the head with an approved accessory as prescribed in Section 12205 – Women’s Personal Appearance, of this chapter. Hair extending beyond the securing accessory may be braided or allowed to extend naturally. The wear of a single braid, French braid, or a single ponytail in Service, Working, and PT uniforms is authorized. The following criteria pertain to the wearing of ponytail hairstyles while wearing a NOAA Corps uniform. Ponytail hairstyles will not interfere with the proper wearing of military headwear and equipment nor extend downward more than three inches below the lower edge of the collar (shirt/blouse, jacket or coat) while sitting, standing or walking. Additionally, ponytails will not extend outward more than three inches behind the head as measured from the securing accessory, nor shall the width exceed the width of the back of the head or be visible from the front. In spaces or environments where there are operational hazards such as rotating gear, etc., the hair may not be worn below the bottom of the collar.
- (b) Hair Accessories – When hair accessories are worn, they must be consistent with the hair color. A maximum of two small barrettes, similar to hair color, may be used to secure the hair to the head. Bun accessories (used to form the bun), are authorized if completely concealed. Additional hairpins, bobby pins, small rubber bands, or small thin fabric elastic bands may be used to hold hair in place, if necessary. The intent is for pinned-up hair to be styled in a manner that prevents loose ends from extending upward or outward from the head. For example, when using barrettes or hairpins, hair will not extend loosely from the head; when hair is in a bun, all loose ends must be tucked in and secured. Hair accessories shall not present a safety or foreign object damage (FOD) hazard. Hair nets shall

not be worn unless authorized for a specific type of duty. Headbands, scrunchies, combs, claws and butterfly clips, are examples of accessories that are not authorized; this list is not to be considered all inclusive.

- (c) Unauthorized Hairstyles – While this list shall not be considered all inclusive, the following hairstyles are not authorized: Pigtails; braids that are widely spaced and/or protrude from the head. Commanding officers have the ultimate responsibility for determining when hairstyles are eccentric, faddish, or out of standards.
- (d) Hair coloring must look natural and present a complementary appearance. Multicolored hair styles (other than naturally occurring) are not authorized.
- (e) Grooming Standards Exception.
 - (i) During group Command/Unit physical training, commanding officers are authorized to standardize unit policy for the relaxation of female hair grooming standards with regard to having hair secured to head (e.g., ponytails). Hair restraining devices, if worn, will be consistent with the current hair color.
 - (ii) Relaxed Hair Requirement with Dinner Dress Uniforms – Female officers are authorized to wear their hair below the lower edge of the collar of the blouse, jacket, or coat of the Dinner Dress Uniform being worn. All other NOAA Corps grooming requirements will remain in effect per the guidance promulgated by these Directives.

2. Fingernails

- (1) Fingernails shall be kept clean and maintained in a professional appearance.
- (2) Fingernails shall have rounded or squared shaped nail tips, and shall not extend beyond 1/4-inch from the end of the fingertip. Nail polish, if worn, shall be of only one color, and all nails shall match. Ornate decorations (such as gems), prints/designs, metallic, glitter-style, textured colors, glow-in-the-dark, and fluorescent/neon colors are not authorized. French and American manicures (white and off-white tips with neutral base color ONLY) are authorized, and are the only two-tone nail color authorized. The tip shall be no wider than 1/4-inch, and must present a clean, natural appearance. Nails shall be maintained to present a professional appearance. Damaged or chipped fingernail color should be repaired in a timely manner (1-2 days). If matching polish is not available or the chipped colors cannot be repaired in a timely manner, the polish should be removed or changed.

3. Cosmetics

- (1) Cosmetics may be applied so that colors blend and enhance natural features. Exaggerated cosmetic styles are not authorized with the uniform and shall not be

worn. Care should be taken to avoid an artificial appearance. Lipstick colors shall be conservative and present a complementary appearance. Long false eyelashes shall not be worn while in uniform.

The uniform may be worn at ceremonies or official functions when the dignity of the occasion and good taste dictate. Wearing a uniform is appropriate for memorial services, weddings, funerals, balls, patriotic or military parades, ceremonies in which any active or reserve United States uniformed component is participating, and meetings or functions of military associations. For officers who have separated (not retired), their service must be terminated under honorable conditions, earning an honorable discharge.
2. Retired and separated NOAA Corps officers are prohibited from wearing the uniform in connection with personal enterprises, business activities, or while attending or participating in any demonstration, assembly, or activity for the purpose of furthering personal or partisan views on political, social, economic, or religious issues.
3. 12305 – Other Situations

1. The following guidelines for uniforms are provided for officers who are planning or participating in weddings.

 - (b) Bride and Maid-of-Honor – NOAA Corps officers may wear either civilian attire or uniforms corresponding to civilian customs.
 - (c) Ushers and Bridesmaids – NOAA Corps officers should all wear the same uniform, which may be different from those worn in subparagraphs (1)(a) or (1)(b) above.
 - (d) Immediate Family – NOAA Corps officers may wear uniforms that correspond to Paragraphs (1)(a) or (1)(b) above.
 - (e) Guests – NOAA Corps officers may wear appropriate Service Dress uniforms.
 - (2) Swords are not usually carried in a house of worship, but the sword belt without scabbard may be carried with full dress uniforms with end clips fastened together. For this occasion, if a NOAA Corps officer plans to form an arch of swords through which the bridal party will pass, draw swords outside the house of worship.
2. Dirty Work – Working Coveralls may be authorized for wear by command in situations where normal work clothing would be rendered unserviceable due to irreparable damage or soiling. Working Coveralls will not be authorized for convenience, nor are they to merely replace work uniforms for normal daily use. The coverall will be the standard Navy coverall available through Federal supply sources, coveralls available from the Coast Guard Uniform Distribution Center (UDC), or working coveralls of similar style and color available from commercial sources.

12306 – The NOAA Corps Sword

1. The NOAA Corps Sword is a naval style sword to honor NOAA’s mission, service and history. It is worn for special occasions with the Full Dress Blue and Full Dress White uniforms.
2. The designs of the blade includes the following features:
 - (1) Present on both sides of the sword:
 - (a) Seventeen stars representing the number of States in the Union when President Thomas Jefferson commissioned “The Survey of the Coast”, establishing the United States Coast Survey, the earliest scientific institution in the US Government and predecessor to the NOAA Corps.
 - (b) Scroll work of wind and waves embody the elements in which NOAA Corps officers labor at sea and in the air. These are forces NOAA Corps officers must endure to fulfill their role as stewards of the oceans and atmosphere.
 - (2) Present on the “Heritage Side” of the sword:
 - (a) The name of the service “NOAA Corps” is engraved near the hilt;
 - (b) The arrow, which represents true north for all surveyors and navigators;
 - (c) The sextant, used by officers for celestial navigation;
 - (d) The lightning bolt intertwined with a trident represents the sea and sky where our missions have led us since our inception; and
 - (e) The geodetic triangle represents our heritage as surveyors and the foundation of the NOAA Corps.
 - (3) Present on the “Legacy Side” of the sword:
 - (a) The compass rose, which is found on all charts to assist navigation;
 - (b) The hurricane symbol, representing the severe weather which often drives our missions and research;
 - (c) The fouled anchor represents our maritime heritage and camaraderie among all mariners; and
 - (d) The NOAA Corps Seal represents the modern NOAA Corps.
3. Sword Accessories
 - (1) The Sword Belt is made of plain black grain leather, or synthetic material presenting the same appearance, 1-3/4” wide, with sling straps of the same material, 3/4” wide. The buckle and mounting are gold plated with the buckle 2” in diameter.

- (2) The Sword Knot consists of a loop of 1/2" gold lace, 24" long with slide and tassel. It is identical to the Navy Sword Knot. It shall be attached to the sword in the following manner:
- (a) While holding the blade handle to the left, pass the lace through the slit in the guard of the hilt. When forming the initial bight of lace the suspended lengths should be somewhat disproportionate. (One end should be 1/4 inch - 1/2 inch longer than the other.)
 - (b) After taking one turn of the remaining lace and knot around the sword handle, pass the sword knot through the protruding initial bight and adjust the lace slide, as illustrated below.
 - (c) Take two or more additional turns. Upon completion, the knot should hang free as illustrated in Figure 12301.1, of this section.

Figure 12301.1

4. Proper Wear

- (1) The sword belt is worn under the Full Dress Blue or White Coat with strap and hook passing through the opening provided on the left side of the coat. Belt straps are snapped to rings on the sword scabbard and upper ring is hooked to the belt with sword hilt to the rear.
- (2) When wearing an overcoat (bridge coat) with Full Dress Blue, the sword goes through the slit in the overcoat and the lower loop goes through the back vent in the coat and the sword attached same as Full Dress Blue.
- (3) A sword is not worn with the All-Weather Coat.
- (4) When the sword is worn at a military funeral, a mourning badge that is 3" wide and 20" long, knotted in the middle at the sword hilt, shall also be worn. A mourning badge is made of black crepe material.

At sea, the wearing of the PTU will be at the discretion of the commanding officer. The PTU will not be worn while in a duty status or when conducting official business on base (e.g., Military Treatment Facilities unless specified, Galleys, Legal). Moreover, the PTU is not authorized to be worn in lieu of the working, service or dress uniform while in a limited or light duty status. Physical Training Uniform (PTU) is designed primarily for group/unit physical training activities. However, it can be worn both on and off base for fitness and/or leisure unless determined otherwise by regional coordinators or commanding officers. At sea, the wearing of the PTU will be at the discretion of the commanding officer. The PTU will not be worn while in a duty status or when conducting official business on base (e.g. Medical Treatment Facilities unless specified, Galleys, Legal). Moreover, the PTU is not authorized to be worn in lieu of the working, service or dress uniform while in a limited or light duty status. In all cases, the PTU will be worn in such a manner so as to reflect credit upon the NOAA Corps and individual wearing the PTU.
